

About EZOP Leadership

Rose Molz

President, EZ Office Products

Before becoming an entrepreneur and business owner of EZ Office Products (EZOP) in 2006, Rose began her career in the office products industry (OPI) in 1991. Starting as a Major Account Manager at Rayovac® (now Spectrum Brands Holdings, Inc.), her initial focus was within the industrial channel before finding a niche in office products. Following the corporation's inception of a new division within office products channel, Rose quickly earned a position selling to independent office supply dealers. During her career, she also was Director of Customer Services at United Stationers.

Rose is a graduate of the University of Wisconsin-Madison with a B.S. in Political Science and International Relations. While she spent a good portion of her career in both the southern and eastern regions of the U.S. she considers herself a Wisconsinite through and through.

Quote:

‘Our mantra is not to sell anything; it’s to help people buy. The way we do that is to remember we are in business to serve and to understand that we are here to help solve a problem or fulfill a need. Then, we deliver results.’ - Rose Molz

Gary Molz

Vice President, EZ Office Products

Gary’s career in the office products industry started when he was a young teen working at his father’s company, BF Molz, in Philadelphia. Over the decades, Gary has experienced both the evolution and maturation of the industry in which he has always been a student. He has performed almost every job or role possible — customer service, delivery driver, furniture assembly and installation, order taking as well as order picking, purchasing, receiving, sales, warehouse and inventory management, and business ownership.

Gary was an active force in launching EZOP with Rose in 2006. During his many years in the industry, Gary has always been an astute observer of its competitive landscape by watching and learning how other businesses operate, change, and evolve. He applies this knowledge to growing EZOP. Like Rose, he believes in corporate responsibility and what is known as the triple bottom line: planet, profits, and people. He also actively investigates ways the “buy local” concept makes a business stronger and better. A native east-coaster who is now a happy Wisconsinite, Gary attended Rowan College at Burlington County (NJ).

Quote:

‘Buying locally is more about the quality of life than it is the economics of business. Our company is looking at the triple bottom line of people, planet, and profits.’ - Gary Molz

About EZ Office Products

History

EZ Office Products (EZOP) is the only independent office supply company in the greater-Madison area and was founded in 2006 by Rose and Gary Molz.

The roots of the company started in the early 2000s on the east coast. At that time, Rose and Gary Molz were living in the greater Philadelphia area and working for BF Molz. Rose, a true Wisconsinite, had the vision of creating an alternative to the Madison “big box” stores and created a BF Molz “branch” location in Madison that officially launched the company with a delivery of copy paper in July 2002.

From there, Rose and Gary’s desire to return home to Wisconsin grew stronger, and they developed business plans for a new company. On January 1, 2006, EZ Office Products was born as a local, independent office supply company. The old-fashioned values that are Important to the owners include honesty, great products at fair prices, friendly and knowledgeable service, and the desire to make a positive difference in the world by giving back to the local and global community.

The company also has been an MPower Business Champion (a nationally recognized model for achieving sustainability success from within an organization) and continues to take the pledge to reduce the company’s overall environmental impact while saving costs, and to create a healthier and more engaging workplace and community.
